### Changes in Verity 1.9.2

#### Improvements

- Support for **Autodesk Navisworks 2022**
- Added **Network Licensing**
- Added **Perpetual Licensing**
- Added **Enterprise Licensing**
- Continued **analysis performance improvements**
- Added support to **upload PDF reports to cloud publishing services**
- Added telemetry tracking for basic usage information
- Updated branding
- Generalized the license installer tool

#### Known Issues

- BIMTrack login issues

#### Bug Fixes

- Continued to stabilize **multi-threaded analysis**

### Changes in Verity 1.9.1

#### Improvements

- Updated End User License Agreement
- Fixed a crash that would occur when loading points from a ReCap project that has had points deleted and optimized.
  - Scans with removed and optimized points may not load in some cases.
- Added way to optionally use older point loading method, which will likely have slower performance, but does not run in to the issues mentioned above
- Improved Analyze performance with Multi-Threading
- Added PDF Reports
- Fixed rare crash that would occur upon opening an Analysis
- Added link to Verity Knowledge Base
- Fixed bug where the Scan Cache folder was being erroneously created
