CHANGES IN COLLAGE SITE 1.6

NEW FEATURES AND IMPROVEMENTS

Collage Site 1.6 is a new in-field registration tool for Topcon Scanners and Scanning Total Stations in both Japanese and English languages. Features and Improvements in Collage Site 1.6 are as follows:

- Added a new Volume Calculation feature
- Added ability to create Stations on established Control Points
- Added detailed information about Collage Site functions without being connected to a Scanner
- Added a warning when Occupy and Backsight point is set to 0
- Added a warning when your Collage Site license is close to expiring
- Fixed an issue where the same point could be selected as both Occupation and Backsight point while doing an Occupation and Backsight
- Added a legend in the Elevation Heatmap that displays estimated color values

BUG FIXES

The following issues have been resolved since the latest release of Collage Site:

- Fixed an issue with Windows 11 bluetooth settings needing to be changed in order to connect to the GTL
